- **Upon receiving your order**, please inspect your scionwood immediately. Any shipping errors, unlabeled scionwood, or scion abnormalities should be reported to Fedco Trees ASAP.
- **Store scionwood** in a dark location with temperatures between 32 and 38°. Because ethylene gas will damage or kill scionwood, we recommend that you "triple plastic bag" your scionwood when storing in a root cellar or refrigerator with potatoes or apples. Your scionwood should remain viable until well into May.
- **For grafting supplies and literature**, please refer to the Organic Growers Supply section of the Fedco Seed catalog.
- **If you'd like to learn more about grafting**, please join us on March 24, 2007 at MOFGA's Common Ground, or email us at trees@fedcoseeds.com in March for a list of spring grafting classes in Maine.
